EDUCATION

- **National Institute of Technology, Warangal** 2026
BTech in Chemical Engineering CGPA: 8.29
- **Rishra Vidyapeeth** 2022
WBCHSE, West Bengal Percentage: 87.0

EXPERIENCE

- **Short-Term Course on Machine Learning** Mar 1 – Mar 14, 2023
E-commerce Customer Behavior Analysis IIT Hyderabad
 - Applied data analysis on e-commerce customer datasets to extract insights for business operations and decision-making
 - Built linear and logistic regression model.
- **Summer Internship under Prof. Pavan Goyal – Text Analytics and NLP** Jul 1 – Jul 15, 2023
Natural Language Processing Model IIT Kharagpur
 - Applied NLP preprocessing: lowercasing, punctuation removal, stopwords filtering, tokenization, lemmatization, and stemming.

PERSONAL PROJECTS

–SMS Spam Detection using NLP

Built a text classifier to detect spam in SMS messages.

- * Applied text preprocessing, tokenization, and TF-IDF vectorization techniques. **[Project Link]**
- * Trained a Multinomial Naive Bayes classifier and evaluated with precision, recall, and F1-score.
- * Achieved high classification accuracy on real-world SMS datasets.

–Azure Data Engineering Project – End-to-End Data Pipeline

Azure Synapse / Data Lake / Data Factory / Power BI / SQL / Parquet

- * Designed and implemented a **data pipeline** using **Azure Synapse** Analytics to process dataset from raw to gold layer.
- * Configured Azure Data Lake Storage and created external tables using **OPENROWSET** and external data sources.
- * Used **Azure Data Factory** for orchestration, automated data ingestion from multiple sources.
- * Built analytical views in the Gold layer and connected **Power BI** for interactive dashboards.

–Business Analytics Dashboard

A Business Analysis Dashboard made by **PowerBI** and **Excel**

- * Tools Used : **Power BI** , **Excel**
- * Built interactive dashboards in **Power BI** and **Excel** using Kaggle datasets; cleaned and structured data, designed dynamic charts and reports to track **KPIs** and deliver actionable business insights
- * **Project Link:** [View Here]

TECHNICAL SKILLS AND INTERESTS

Languages: C++, C, SQL, Python

Data Visualization: PowerBI, Excel

Coursework: Data Structures, DBMS, AI/ML,NLP, Microsoft Azure

Databases: MySQL

Areas of Interest: Software Development, Machine Learning, Artificial Intelligence,Natural Language Processing

ACHIEVEMENTS

- Received Institute Merit Scholarship for 1st and 2nd year.
- Achieved 'Excellent' grade in Summer Internship on NLP at IIT Kharagpur.

INTERESTS

- Reading Books
- Playing Classical Musical Instruments
- Cooking
